## Home Page

The screenshot shows the eProject Home Page. At the top, there are navigation buttons for 'Home', 'Sign-up', and 'Sign-in'. Below this is a 'Welcome on eProject!' message. A section titled 'One question, Four choices' invites users to play a game where they bet an amount to double or more. A green box asks 'Will you know the correct answer?'. Below this is a preview of the game interface, showing a question: 'A citizen of Australia is called a/an:'. The options are 'Australander', 'Australist', 'Austrian', and 'Australian'. The 'Australian' option is selected. A 'Valid!' button is visible. At the bottom of the preview, there is a 'Next page' button. The footer of the preview mentions 'Realised by Christophe Destips & Olivier Versanne - Contact us'.

The main page shows what you can do when you connect as a visitor. If you are not already a member, you can sign-up, connect to play. Else, you can see how to contact us, or discover more about our project.

## Signing-up

To sign-up our game, the user have to click on "Sign-up". Then, you will have to choose a pseudo, a password, and give your e-mail address.

The screenshot shows the 'Create my account' form. It has a title 'Create my account' and a section 'Account information'. The form contains four input fields: 'Login:', 'Email:', 'Password:', and 'Confirmation:'. Below the fields is a 'Create!' button. The footer of the form mentions 'Realised by Christophe Destips & Olivier Versanne - Contact us'.

On this page, you have information about your account.

So, you can change your e-mail address, see your permissions, change your password, or delete your account.

## Play

To start a new session of play, you have to choose a bet. For example, at the beginning, you can choose 10\$.

### Let's play!

---

#### Select how much you bet

You have **2 daily bets** remaining and **1 bonus**.

How much do you want to bet?  \$

You will have 5 questions to win the double of your bet. After that, you will have to choose between leaving the game (with the gain), or continuing the session (and earn the double).

## Add a question

Answer 1:    
Answer 2:    
Answer 3:    
Answer 4:

Each player can add a question he wants.

The player has to write the question, chooses the category of the question (Physic, Comics, Sports ...), and the difficulty.

Then, he writes the four proposals and checks the right answer.

Moderators can validate the question and the answer if it's right.
